DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Shelton on 3/21/05.

Claims 9-16 have been cancelled.

Reasons for Allowance

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claim 1, the closest prior art of record, applicant's admitted prior art (Fig. 19 of drawing) does not disclose the following limitations: the functional limitations of the first and second phase inverter circuits.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
